

Time	All lectures in Auditorium, Level 4, Barbican Centre	WHO 2026	Speaker
	Tuesday 20 April HPB pathology		
09.15	Introduction		Roger Feakins
09.20	Autoimmune liver disease and overlap syndromes		John Hart
10.00	The contemporary liver pathology tube: new stops, new routes		Sanjay Kakar
10.40	COFFEE 1		
11.10	Alcoholic and steatotic liver disease		John Hart
11.50	Pancreatic carcinoma in 2027	+	Volkan Adsay
12.30	LUNCH		
13.30	Gallbladder pathology: more than just gallstones		Matteo Fassan
14.10	Hepatocellular adenomas: when is a benign tumour not benign?	+	Sanjay Kakar
14.50	COFFEE 2		
15.20	The morphology is not enough: interplay of immunohistochemistry and molecular pathology in intrahepatic cholangiocarcinoma	+	Sanjay Kakar
16.00	Memorable medical liver consultation cases		John Hart
16.40	Closing remarks		
16.45	End		
	Wednesday 21 April Neuroendocrine neoplasms, upper GI disease and appendix		
09.15	Introduction		
09.20	Making sense of ampullary neoplasia	+	Volkan Adsay
10.00	Autoimmune gastritis and related entities		Hwajeong (Jenny) Lee
10.40	COFFEE 1		
11.10	Pitfalls in coeliac disease diagnosis		Matteo Fassan
11.50	Mesenchymal tumours of the digestive system	+	Lindsay Alpert
12.30	LUNCH		
13.30	Gastric neuroendocrine neoplasms and their precursors	+	Stefano La Rosa
14.10	Appendiceal pathology is easy (until it isn't)	+	Volkan Adsay
14.50	COFFEE 2		
15.20	Neuroendocrine carcinomas vs grade 3 neuroendocrine tumours	+	Stefano La Rosa
16.00	The many faces of upper GI carcinoma	+	Matteo Fassan
16.40	Closing remarks		
16.45	End		
	Thursday 22 April Recent changes		
09.15	Introduction		
09.20	Drug-induced disease of the GI tract		Lindsay Alpert
10.00	Histological biomarkers in colorectal carcinoma		Hwajeong (Jenny) Lee
10.40	COFFEE 1		
11.10	WHO classification - focus on tubular gut: recent changes & knowledge gaps	+	Mark Arends
11.50	Amphicrine neoplasms and pancreatic acinar tumours	+	Stefano La Rosa
12.30	LUNCH		
13.30	The latest developments in genomic testing		Nick West
14.10	An update on GI cancer precursor lesions	+	Nicole Panarelli
14.50	COFFEE 2		
15.20	Diagnostic digital pathology, including IBD assessment		Viktor Koelzer
16.00	From snare to slide: a practical approach to endoscopic mucosal resections		Lysandra Voltaggio
16.40	Closing remarks		
16.45	End		
	Friday 23 April Lower GI		
09.15	Introduction		
09.20	IBD reporting issues and mimics		Nicole Panarelli
10.00	Morpho-molecular classification of GI cancers		Viktor Koelzer
10.40	COFFEE 1		
11.10	Beyond SILS: the broader spectrum of HPV-driven anal pathology	+	Lysandra Voltaggio
11.50	New datasets for colorectal cancer		Nick West
12.30	LUNCH		
13.30	Polyposis syndromes of the GI tract		Mark Arends
14.10	Sexually transmitted infections in unexpected places: recognition & diagnosis		Lysandra Voltaggio
14.50	COFFEE 2		
15.20	Non-neoplastic lower GI pathology in immunosuppressed patients		Nicole Panarelli
16.00	Macroscopic dissection of colorectal cancer is not an afterthought		Nick West
16.40	Closing remarks		
16.45	End of conference
